-School History

Thank you for considering Scuba Views LLC for your career training. We are committed to providing you with training that will prepare you to meet your career goals and become successful in the diving industry.

In addition to preparing you for a successful career, our training programs are enjoyable and stress free. Give us a call, write us an Email or come in and talk to us, we'd like to help you plan your career.

Scuba Views LLC Dive Shop was opened in June 2006 and has provided diving services since that time. In August 2008 we were awarded the PADI 5 Star Instructor Development Center rating. We provide the complete range of PADI training programs from beginning diver to Instructor level courses.

-Instruction

We are committed to providing you with PADI scuba instruction that is informative, and interesting. In addition, we structure our programs to fit your skills and experience. Not only are the programs educational they are safe and enjoyable. We believe you learn quicker and remember the information longer when you enjoy your training.

-Description of Facility

The school facilities are located at 3220 N Rancho Dr. Las Vegas Nevada. The 1500sqft. facility consists of a 150sqft. classroom, 1300sqft. of retail display area. The open water setting is approximately 35 minutes from the school facilities. The classroom is equipped with classroom style seating arrangement and completely outfitted with video, DVD and computer equipment, internet connections and teaching equipment.

-Our Team

-The corporate officers are:

Sole Member: Marilyn Duckro

General Manager: Bill Duckro

Asst Manager: Justin Miller

-School Faculty:

Andy Montoya, **PADI** Course Director #83153

Kenny Williams, **PADI** IDC Staff Instructor #89793

Bill Duckro, **PADI** MSDT #176222

Justin Miller **PADI** MSDT #234659

Hans Albrecht **PADI** OWSI #196590

As a **PADI** Course Director Andy can teach all of the courses offered from Advanced Open Water through Instructor Development Course Staff Instructor. Specialty Instructor Trainer for Boat, Deep, Drift, EANx (Nitrox), Equipment, Fish ID, Multi-Level Diver, U/W Naturalist, U/W Navigation, Peak Performance Buoyancy, Project Aware, Oxygen First Aid, Night, U/W Photography, Search & Recovery, U/W Videographer.

As a **PADI** IDC Staff Instructor Kenny can teach all of the courses offered from Open Water Scuba Diver through Asst Instructor plus the following specialties; Altitude, AWARE Coral Reef Conservation Specialty, Boat, Care for Children w/AED, Deep, Diver Propulsion Vehicle, Dry Suit, EFR w/AED, Enriched Air Diver, Equipment Specialist, Fish Identification, Multilevel Diver, Night Diver, Peak Performance Buoyancy, Project Aware, Search & Recovery, Underwater Naturalist, Underwater Navigator, Underwater Photographer, Underwater Videographer and Distinctive Specialty O2 FIRST AID.

As a **PADI** Master Scuba Diver Trainers Bill and Justin can teach all of the courses offered from Open Water Scuba Diver through Divemaster plus the following specialties Altitude, AWARE Coral Reef Conservation Specialty, Boat, Care for Children w/AED, Deep, Diver Propulsion Vehicle, Drift, Digital Underwater Photography, EFR w/AED, Enriched Air Diver, Equipment Specialist, Fish Identification, Multilevel Diver, Night Diver, Peak Performance Buoyancy, Project Aware, Search & Recovery, Underwater Naturalist, Underwater Navigator, Underwater Photographer, Underwater Videographer and Distinctive Specialty O2 FIRST AID.

After your Open Water Diver Course your next program is Advanced Open Water, then Rescue Diver, Divemaster, and then your Instructor Development Course. If your entry-level or current certifications are from a training organization other than PADI, you probably meet PADI's training equivalency requirements. For more information about our programs or for help on deciding which course is next for you –just give us a call.

-Planning your Diving Career

The key to success as a diving educator is understanding the steps involved in getting a good education. To prepare for your instructor program, you need the proper educational background and skills. The steps to beginning your diving career as a PADI Instructor start with the continuing education program. To get started planning your diving career, you must decide upon your training program. You can enroll in one course at a time or in your entire program. To determine your next course, look at the PADI Continuing Education course pyramid. This pyramid shows you the complete range of PADI programs and gives you an idea of what your next program should be.

-The PADI Open Water Scuba Instructor

Training Program

PADI's instructor training program is unique and unlike any other in the industry. It is divided into two parts, and to qualify for PADI Open Water Scuba Instructor certification, both parts must be completed. The first part is the Instructor Development Course. During this course you learn how to teach PADI courses and use of the PADI System of diver education. PADI training standards are overviewed by our Course Director and the individual PADI Courses are presented in detail. In addition, you will have practice teaching opportunities in the classroom, pool, and open water that prepare you for the Instructor

Examination

Part two of the program is the Instructor Examination, conducted by PADI Headquarters. This two-day phase involves an evaluation of your diving knowledge and teaching abilities in the classroom, pool, and open water environment. After completion, you're certified as a PADI Open Water diver.

Pre IDC Courses

Advanced Open Water Diver

As you step beyond the PADI Open Water Diver level, you make five dives and have the opportunity to try some of diving's most rewarding and useful specialty activities, such as deep diving, digital underwater photography, wreck diving and much more. These skills make diving much more than underwater sightseeing. Plus, the Advanced Open Water Diver course takes you one step closer to Master Scuba Diver – the ultimate non professional certification in recreational diving. This course will further develop your confidence in the water and your diving enjoyment.

Course Prerequisites:

- PADI Open Water or qualifying certification from another training organization
- Minimum Age: 18 years for Career candidates
- Minimum number of dives in course: 5

Required Diving Equipment: (included)

- Mask, fins and snorkel
- BCD with low-pressure inflator
- Regulator with Alternate Air Source
- Submersible pressure gauge
- Depth gauge, timing device and/or dive computer
- Compass
- Knife / Diver Tool
- Appropriate exposure protection
- One audible surface signaling device
- Recreational Dive Planner (table, eRD PML)
- Scuba tanks and weights will be provided at no extra charge

Course Tuition..... \$350

Certification: PADI Advanced Open Water Diver
Course material: Included

Academic Topics & Skills for Advanced (Clock Hours)

- AOW 001 Diving Exercise Briefings 02:50
- Open Water Skills
- AOW 002 Diving Skill Development 12:50
- Exercises
- Total Clock Hours 15:00**

Rescue Diver

Challenging and rewarding best describes the PADI Rescue Diver course. This course will expand your knowledge and experience level. Rescue Divers learn to look beyond themselves and consider the safety and well being of other divers. Although this course is challenging, it is a rewarding way to build your confidence. Rescue Diver training will prepare you to prevent problems and, if necessary, manage dive emergencies. Many divers say this is the best course they've ever taken.

You'll cover:

- Self-rescue and diver stress
- Emergency management and equipment
- Panicked diver response
- In-water rescue breathing protocols
- Egress (exits)
- Dive accident scenarios

Course Prerequisites:

- PADI Adv. Open Water or qualifying certification from other training organization
- Minimum number of dives for certification: 20
- Cardiopulmonary Resuscitation (CPR-Primary Care) and basic first aid (Secondary Care) within the past two years (24 months)
- Minimum Age: 18 years for Career candidates
- Minimum number of dives in course: 4

Required Diving Equipment: (included)

- Mask, fins and snorkel
- BCD with low-pressure inflator
- Regulator with Alternate Air Source
- Submersible pressure gauge
- Depth gauge, timing device and/or dive computer
- Compass
- Knife / Diver Tool
- Appropriate exposure protection
- One audible surface signaling device
- Recreational Dive Planner (table, eRDPL)
- Scuba tanks and weights will be provided at no extra charge

Course Tuition..... \$399

Divemaster

Your adventure into the professional levels of recreational diving begins with the PADI Divemaster program. Working closely with a PADI Instructor, in this program you expand your dive knowledge and hone your skills to the professional level. PADI Divemaster training develops your leadership abilities, qualifying you to supervise dive activities and assist instructors with student divers. During the PADI Divemaster program, you learn dive leadership skills through both classroom and independent study. You complete water skills and stamina exercises, as well as training exercises that stretch your ability to organize and solve problems. You put this knowledge into action through a series of practical training exercises.

Knowledge Development: 12 topics ranging from dive theory to assisting student divers in training

Course Prerequisites:

- PADI Adv. Open Water Diver or qualifying certification from another organization
- PADI Rescue Diver or qualifying certification from another organization
- Minimum number of dives to start course: 40
- Minimum number of dives for certification: 60
- Medical clearance signed by a physician
- Minimum Age: 18 years
- Minimum number of dives in course: 5

Required Diving Equipment: (included but strongly recommended to own)

- Mask, fins and snorkel
- BCD with low-pressure inflator
- Regulator with Alternate Air Source
- Submersible pressure gauge
- Depth gauge, Timing device and/or dive computer
- Compass
- Knife / Diver Tool
- Appropriate exposure protection
- One audible surface signaling device
- Recreational Dive Planner (table, eRD_{PML})
- Scuba tanks and weights will be provided at no extra charge

Course Tuition..... \$595

Certification: Divemaster
Course material: Included

Instructor Development Course

Are you looking for something extraordinary? To do something others can only dream of? To open doors you didn't even know existed? All of this, and more, awaits you as a PADI Open Water Scuba Instructor. Be part of the magic and adventure of scuba diving. Start today to become part of the way the world learns to dive. Become a PADI Instructor. The IDC consists of two sections, the Assistant Instructor (AI) course and the Open Water Scuba Instructor (OWSI) program. The first part of the PADI Instructor Development Course (IDC) is the PADI Assistant Instructor course. This course provides you additional experience as a PADI Professional and teaches you the PADI System of diver education. The Open Water Scuba Instructor program portion of the PADI IDC further hones your leadership and teaching skills to prepare you for life as a PADI Instructor.

Course Prerequisites:

- PADI Divemaster rating or qualifying certification from another organization
- Minimum number of dives to start course: 60 (w/ exp. in night, deep & nav.)
- Minimum number of dives for certification: 100 (required to attend I.E.)
- Proof of CPR and first aid training within the last 24 months
- Medical clearance signed by a physician
- Minimum Age: 18 years
- Minimum number of dives in course: 3
- Emergency First Response Instructor (required for application processing)

Required Diving Equipment: (included but strongly recommended to own)

- Mask, fins and snorkel
- BCD with low-pressure inflator
- Regulator with Alternate Air Source
- Submersible pressure gauge
- Depth gauge, Timing device and/or Diving computer
- Compass
- Knife / Diver Tool
- Appropriate exposure protection
- One audible and one visible surface signaling device
- Recreational Dive Planner (table, eRDP_{ML})
- Scuba tanks and weights will be provided at no extra charge

Emergency First Response Instructor Course

During the Emergency First Response Instructor course, you will build on your skill as an Emergency Responder and focus on developing your instructional abilities to teach these skills to others. The Instructor course provides you with the additional training necessary to teach the Emergency First Response Primary Care (CPR), Secondary Care (First Aid) and Care for Children courses. Through a multi-media approach of independent study, classroom sessions and practical teaching assignments, you learn to conduct Emergency First Response courses. The instructor course covers specific goals and performance requirements for the Primary Care, Secondary Care and Care for Children courses, along with instruction on how to structure learning, the requirements of performance-based training, and your role as the instructor in the learning environment. You also learn how to motivate students, evaluate student knowledge, present course content effectively, become proficient in developing students' hands-on skills practice sessions, and are taught how to present an effective scenario-based learning experience.

Course Prerequisites:

- To enter the Emergency First Response Instructor course, you must have completed adult, child/ infant CPR and first aid training in the past 24 months or a be a practicing medical professional such as a physician, Emergency Medical Technician, Paramedic and Registered Nurse.
- Minimum Age: 18 years

Course Tuition.....\$250

Certification: Emergency First Response & Care for Children Instructor

Instructor Continuing Education Programs

The better you are, the more money you make. As a PADI Instructor, you can increase your marketability and create a greater demand for yourself by becoming a PADI Specialty Instructor, or a Master Scuba Diver Trainer. Dive professionals who have the right skills can work anywhere in the world. Employers seek them out.

Master Scuba Diver Trainer

Specialty courses are in great demand today because they are enjoyable for the students to take and for the instructor to teach. In addition, they can easily be combined with international or domestic travel programs, and they qualify students for the Master Scuba Diver rating. Our program includes 5 specialty instructor courses conducted in an integrated manner over 4 days:

- PADI Eanx Diver
- PADI Wreck Diver
- PADI Deep Diver
- PADI Underwater Navigator
- PADI Search & Recovery Diver

During the program you will learn how to promote, market, and conduct specialty courses. You will practice briefing, skills and scenarios. This include but is not limited to: Navigation patterns, Search & Recovery Search patterns, Wreck survey, mapping and penetration, use of Reel, use of Lift Bag and Deep Diving Techniques.

Course Prerequisites:

- Current PADI Instructor or completion of an IDC or OWSI course within the last 12 months
- Instructor has certified 25 PADI divers
- Minimum Age: 18 years
- Minimum number of dives in course: 7

Required Diving Equipment: (not included)

- Mask, fins and snorkel
- BCD with low-pressure inflator
- Regulator with Alternate Air Source
- Submersible pressure gauge
- Depth gauge, timing device and / or dive computer
- Compass
- Appropriate exposure protection
- Dive knife or tool
- One Audible and one visible surface signaling device
- Primary and back-up lights
- Wreck Reel
- Lift Bag
- Scuba tanks and weights will be provided at no extra charge.

Course Tuition..... \$695

Certification: Master Scuba Diver Trainer

Course material: Not Included

Additional Fees

5 - PADI Specialty Instructor Application Fees..... **\$49**

Each specialty application requires 10 logged dives in that specialty.

MSDT application fee..... **\$67**

Estimated Total Costs plus tax (assuming no prior specialties) \$1,007

Instructor Level Trainers

Instructor Development Course: Staff Instructor

Instructors who have gone beyond the PADI Master Scuba Diver Trainer certification have special credentials that allow them to teach PADI Instructor Development Courses or programs within the IDC. PADI IDC Staff Instructors can teach the AI course in its entirety and may assist with IDCs. This program is the next step in PADI's Instructor Continuing Education program following Master Scuba Diver Trainer, and it provides a complete overview of the IDC training process. You'll practice and learn more about the IDC evaluation skills. You'll practice candidate evaluations in the classroom, pool, and open water settings and learn more about IDC training philosophy.

Course Prerequisites:

- PADI Master Scuba Diver Trainer
- Minimum Age: 18 years
- Minimum number of dives in course: 3

Required Diving Equipment: (not included)

- . Mask, fins and snorkel
- . BCD with low-pressure inflator
- . Regulator with Alternate Air Source
- . Submersible pressure gauge
- . Depth gauge, Timing device and / or Dive Computer
- . Compass
- . Appropriate exposure protection
- . Dive knife or tool
- . One Audible and one visible surface signaling device
- . Scuba tanks and weights will be provided at no extra charge.

Non-Career Programs

Tec Deep Diver

The DSAT Tec Deep Diver course takes you past recreational diving and immerses you in the world of technical diving. After successful completion of the DSAT Tec Deep Diver course you'll be able to conduct gas-switch extended no-decompression dives, decompression dives and accelerated decompression dives using air and enriched air to a depth of 50 metres/165 feet. You'll also understand the hazards and risks involved in technical diving, as well as how to prepare for and handle reasonable foreseeable technical diving emergencies.

Course Prerequisites:

- PADI Advanced Open Water Diver (or qualifying cert. from another organization)
- PADI Rescue Diver (or qualifying certification from another organization)
- PADI Enriched Air Diver (or qualifying certification from another organization)
- Have a minimum of 100 logged dives
 - 20 must be enriched air dives
 - 25 dives must be deeper than 18 metres/60 feet
 - 15 dives must be deeper than 30 metres/100 feet
- Minimum Age: 18 years old
- Minimum number of dives in course: 12

Required Diving Equipment: (not included, consult instructor before making purchases)

- Mask, Fins, Dive Light and backup
- Twin Tanks with dual isolator manifold
- Primary and secondary regulators for double H or Y valve manifolds, one on long hose (7ft.) for air sharing and one with SPG. Appropriate labeling/markings 2 Stage/decompression tank with regulator and SPG, with proper labels/markings
- BCD's (dual bladder preferred) and harness
- Dive Computer (single gas, single gas enriched air, and/or multigas) and backup, or backup timer and depth gauge
- Backup decompression information: backup computer, deco-dive tables etc.
- Exposure suit appropriate for environment and dive duration
- Weight system
- Jon line
- Inflatable signal tube
- Reel
- Lift bag (100lbs min, if possible yellow)
- Knife / Cutting tool and back up;
- Other Equipment (Slate, Back up mask; Compass; Lights; Sliding gate clips, lots of large and small cable ties, bungee cord, surgical tubing etc)
- Scuba tanks will be provided at no extra charge.

Course Tuition:\$1850

Certification: DSAT Tec Deep Diver

Course material: Included
